Summary

Full Stack Developer with fresher in Java, React.js, MySQL, and MERN stack, building scalable RESTful APIs, and responsive web applications,

Education

Bachelor of Engineering (ECE) 2021 – 2025

PPG Institute of Technology **CGPA: 8.2 / 10**

Technical Skills

Languages: Java, JavaScript
Frontend: HTML5, CSS3, Bootstrap, React.js, Tailwind CSS
Backend: Spring Boot, Spring MVC, REST APIs,
Database: MySQL, PostgreSQL, MongoDB
Tools: Git, GitHub, VS Code. **AI Tools;** Copilot, Claude, ChatGPT
Concepts: DSA, OOPs, API Integration,

Projects

Hotel Booking Application

REPO | **DEMO**

Tech Stack: MongoDB, Express.js, React.js, node.js,

- Designed and implemented 15+ RESTful APIs using Node.js and Express.js following MVC architecture for seamless frontend-backend communication.
- Architected a full-stack MERN hotel booking platform supporting end-to-end reservation workflows with real-time booking confirmation.
- Built a fully responsive React.js and Tailwind CSS UI ensuring cross-device compatibility across 3 platforms — mobile, tablet, and desktop.

Smart Job Application System

REPO | **DEMO**

Tech Stack: Java, Spring Boot, MYSQL, React.js,

- Built 20+ RESTful APIs using Spring Data JPA and MySQL managing 1000+ job listings, applications, and user profiles efficiently.
- Engineered an ATS resume filtering engine achieving 85% keyword match accuracy ranking candidates against live job descriptions.
- Designed real-time recruiter dashboard and applicant status tracking panel with role-specific UI using React.js.

SOS Emergency Alert System

Tech Stack: Java, React.js, REST APIs, GPS API

- Built a real-time SOS alert system triggering instant notifications to 2+ emergency contacts within 3 seconds via REST API integration.
- Integrated GPS API for live geolocation tracking with automated SMS and email dispatch using third-party APIs.
- Developed React.js dashboard for emergency contact management, alert history, and real-time location monitoring.

Spotify Clone

REPO | **DEMO**

Tech Stack: React.js, JavaScript, Tailwind CSS

- Developed a responsive Spotify-inspired music streaming web application using **React.js, JavaScript, and Tailwind CSS**.
- Implemented **music browsing, playlist-style UI, search functionality, and interactive audio controls** for a smooth user experience.
- Built reusable **React components** with responsive Tailwind CSS layouts to ensure a consistent experience across desktop and mobile devices.

Courses

- Java Full Stack Development – IDM Tech Park (Ongoing)
- Junior Software Developer – TN Skill Development, Vinsys IT Services (DEC 2025 – MAR 2026)

Work Experience & Intern

Web Development Intern, Precision Informatic Pvt Ltd **Nov 2024 – Feb 2025**

- **Developed and styled responsive web pages** using HTML5, CSS3, and JavaScript, ensuring cross-browser compatibility and mobile-friendly layouts under the guidance of senior developers at Precision Informatic Pvt
- **Collaborated with the development team** to translate UI/UX design mockups into functional front-end components, improving page load performance and user experience.
- Gained hands-on experience with modern frontend tools and frameworks (React, Bootstrap, Git)**,** contributing to real-world projects while strengthening skills in debugging, version control, and responsive design principles**.**

Junior Design Engineer, WABCO-ZF CVCS Chennai **Apr 2025 – Sep 2025**

- Supported technical documentation, engineering coordination, and quality-focused processes
